for screen mask making.

# Press style screen exposure machine

## MODEL SP-1000FL

This compression exposure machine (Artificial parallel light system of Fresnel lens) is developed for small and medium screen plates. Anybody can easily perform high precision exposure work via 3kw metal halide light source and UV light integrator. And the original compression method is applied for close adherence.

### ■ Main specification

Valid size for platemaking	980×720mm
Maximum frame size	1000×1000×40t(mm)
Light source	Instant start type, metal halide lamp 3kw (air cooling type)
Exposure control	Computer control, up to 9 channels (Using a light integrator)
Power source	Single phase 200V, 35A
Air	More than 5kg/cm <sup>2</sup>
Outer dimensions	1660(W)×1480(D)×1810~2300(H)(mm)
Weight	700kg
